PCCS framework for informing decisions around promoting international conferences

A) The following events will be <u>actively</u> promoted by PCCS (e.g. conference details circulated to members via group email and other communications platforms eg twitter), the following criteria must be satisfied:

1. Content is of relevance to PCCS (as decided by Hon Sec/ Communication officer/ President; decision by consensus)
2. Attendance at the event does not REQUIRE air travel - i.e. the event is overseas but it is expected that international speakers/delegates <u>will</u> attend the event virtually

Other criteria to be considered :

3. The event organisers have published a sustainability / climate change statement.
4. The event has a diverse range of speakers, in terms of gender and ethnicity (as guided by PCCS EDI policy)

B) The following events may be promoted in a limited fashion by PCCS (conference details on PCCS website, but no wider circulation of information to members)

1. Content is <u>highly relevant </u>to PCCS (as decided by Hon Sec/ Communication officer/ President; decision by consensus).
2. Attendance at the event REQUIRES air travel - i.e. the event is overseas but there is a hybrid option that allows international* speakers/delegates to attend virtually
3. The event organisers have published a sustainability / climate change statement with clarity around position/ intentions on air travel

Other criteria to be considered :
4. The event has a diverse range of speakers, in terms of gender and ethnicity (as guided by PCCS EDI policy)

C) The following events will <u>not</u> be promoted by PCCS

1. Content is of no relevance to PCCS (as decided by Hon Sec/ Communication officer/ President; decision by consensus)
2. Attendance at the event REQUIRES air travel - i.e. the event is overseas and there is no option but for international speakers/ delegates to attend in person

* international in this context implies intercontinental travel
